Summary

Currently working for an **IT-Strategy Project** at a primary Italian Group in the payments services field.

Main project deliverables: Digital Architecture Design, Technologies Selection, Roadmap and Costs Assessment.

During my career I have been involved in the implementation of many IT solutions especially in the Banking Industry. I've gained significant experience on designing/realizing large Multichannel Platforms, on practicing offshore Software Development and on IT Consulting, furthermore I have strong knowledge on Web Applications in general.
